**Pet Communicators**

# Press Release

## **Noted Pet Communicators Offer Free Pet Communication at Super Pet Expo in Chantilly, VA**

Suzanne and Chuck Fisher, noted Pet Communicators, will be giving free 2-minute Pet Communication sessions at the Super Pet Expo in Chantilly, VA on March 19-21, 2010. Come to the Dulles Expo Center, 4368 Chantilly Shopping Center in Chantilly, VA and find out what Spot and Fluffy are really thinking.

**Chantilly, VA, March 8, 2010:** Even better, learn how to talk to Spot and Fluffy yourself at the FREE Basics of Pet Communication seminars Friday evening, Saturday and Sunday.

Suzanne will also perform a Blessing of the Animals on Saturday and Sunday, followed by individual blessings for individual pets.

Featured Pet Communicators at many pet expos on the East Coast and at cat shows from New Hampshire to Florida, Chuck and Suzanne are dedicated to helping you understand your pet better.

Many people joke that they are unsure that they want to hear what their pets have to say about them. But these doubts fall by the wayside when their pets have behavioral problems that they want Suzanne and Chuck to help solve. Some common behavioral problems Suzanne and Chuck work with include pets not eating, pets relieving themselves in inappropriate places, pets destroying furniture, and pets biting or scratching their people.

Chuck and Suzanne work with all types of pets. Some species are more willing to communicate than others. Chuck and Suzanne are owned by four cats who travel with them and who they say leave them in no doubt that the cats are in charge in their household.

Chuck and Suzanne say that people who love animals and have pets are already communicating with their pets - they just need to refine their skills. Until they do, Suzanne and Chuck are available to give them some insight into what their pets are thinking.

**For Release 9 a.m. EDT, March 8, 2010**

*more*

Suzanne and Chuck have known about their abilities as Pet Communicators for many years, but have only offered their services to the public since 2004. Suzanne first learned about her ability to communicate with other species over twenty years ago at the state fair in Richmond when a chicken spoke to her as she walked through the chicken barn. Chuck learned he could communicate with animals when he bonded with a stray cat named Tigger who later came to live with the Fishers in the early 1990's.

Articles about and interviews with the Fishers may be found at:  
<http://www.petcommunicators.com>.

Pictures are also available at <http://www.petcommunicators.com>.

Suzanne and Chuck are available for interviews Thursday afternoon or Friday morning by appointment or during the show without an appointment. You may also schedule interviews through Mythanne Reno, the Show Director, at: 888-650-6060 or 614-205-0126. She may also be reached by email at [Mythanne@columbuspetexpo.com](mailto:Mythanne@columbuspetexpo.com)
